WHO WE ARE.

We are a South African company with over 8 years experience in the distribution and supply of medical and surgical devices/ equipment. Founded in 2014 in Pretoria, our company is registered with the South African Health Products Regulatory Authority, SAHPRA. Our company has grown from being a Provincial level distributor to a national level distributor with over 230 hospitals in our client portfolio from both the Public and Private Healthcare sectors and we are looking to grow our distribution to neighbouring SADC countries.

ORGANISATIONAL STRUCTURE

GOALS & VISION

COMPANY GOALS

To become an institution that is invested in research and development of the devices we source and ensure that they are suitable for use in the African market.

To always provide solutions to healthcare professionals that will make it easier for them to perform their tasks and customizable to their specific needs.

To continue building a team with the necessary skills, professionalism and desire to add value to our partners and clients.

To establish a bigger market presence with our current market and future business in new territories as the organisation matures.

COMPANY VISION

To provide highly optimised services to medical institutions throughout the Southern region.

To become a market leader in the supply of Minimally Invasive surgical devices and implants.

To supply high quality surgical devices that meet required international standards and to provide the best after sales support to our clients.

OUR MARKETS

A photograph of surgeons in an operating room, wearing blue scrubs, masks, and hairnets. The image is partially obscured by a large yellow and red geometric graphic on the left side. Four colored squares are overlaid on the image, each containing text.
